#### NEW QUESTION 28

You need to resolve the issue reported by the marketing manager.

Which two roles can you assign? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- \* Organization Management
- \* Recipient Management
- \* Records Management
- \* Reports Reader

## Topic 1, Fabrikam, Inc

### Requirements:

#### Organizational structure

Contoso has the following departments:

- \* Human resources (HR)
- \* Finance
- \* Technical support
- \* Marketing

Each department has a shared mailbox that matches the department name.

#### Licensing

Contoso has Microsoft 365 E5 and Azure Active Directory (Azure AD) Premium P2 license plans.

#### Active Directory

Contoso uses an on-premises Active Directory Domain Services (AD DS) environment that synchronizes attributes to Azure AD by using Azure AD Connect.

#### Microsoft Exchange

Contoso uses an on-premises Active Directory Domain Services (AD DS) environment that synchronizes attributes to Azure AD by using Azure AD Connect. \* Microsoft Exchange The company uses a Microsoft Exchange Server 2016 hybrid environment.

#### Mailbox locations

- \* Exchange servers host the mailboxes for the finance and marketing departments.
- \* Exchange Online hosts the mailboxes for the technical support and HR departments.

#### Archiving and auditing

- \* Email messages older than 18 months are moved to the user's archive mailbox.
- \* Auditing is enabled for the tenant.

#### Department memberships

- \* A user named User6 joins the technical support department.
- \* A user named User7 joins the HR department.
- \* A user named User8 is a member of the marketing department.

\* A user named Admin2 is a member of the technical support department

#### Permissions

\* You must assign the minimum privileges for users to perform their required job functions.

\* Users from the technical support department must be able to create subfolders in public folders. These users must be able to search for content in user mailboxes and remove the content if necessary.

\* Users from the HR department must be able to search for content in user mailboxes and place content on hold if necessary.

#### External email

External users must be able to send emails to mail-enabled public folders hosted on Contoso's Exchange server.

#### App authentication

All Microsoft Outlook apps must use modern authentication.

#### Meeting visibility

Fabrikam users must be able to view when Contoso users are in a meeting and where the meeting is located. Fabrikam users must not be able to view the meeting title.

#### Outlook on the web

Only attachments from default office app files should be permitted to be downloaded or opened in Outlook on the web.

#### Retention

Emails in Exchange Online must never be permanently deleted.

#### Issues

#### Missing email

\* A user named User1 reports that an important email has been missing from the HR shared mailbox for eight days.

\* Emails are missing from the marketing manager's mailbox. The manager reports that they are unable to perform an audit search.

#### Marketing department

\* User8 permanently deleted some important emails.

\* Users from the marketing team are unable to send or open Microsoft PowerPoint attachments in Outlook on the web.

#### Non-deliverable reports

An external user named User2 receives non-deliverable reports (NDRs). The NDRs state that they do not have permissions to send emails to a mail-enabled public folder named PF1.

#### Repeated authentication

A user named User3 reports that Outlook repeatedly prompts them to enter their email credentials. No case visibility

\* A user named User4 reports that they are unable to view Advanced eDiscovery cases created by other users.

\* User6 is not able to use eDiscovery.

#### Archived email

A user named User5 reports that emails are not automatically moved to the archive mailbox.

#### Outlook connectivity

User6 reports receiving the following message when they add an account to Outlook: The connection to Microsoft Exchange is unavailable. Outlook must be online or connected to complete this action.

#### Free/busy information

Users from Fabrikam report that they are unable to view free/busy information of Contoso users.

#### Admin issues

\* A user named Admin1 needs to assign the compliance permissions for members of the HR and technical support departments

\* Admin2 reports that they receive an error message when they try to create a subfolder in a public folder.

Select **Policies and rules**.

Select **Quarantine** and then select the message to review the quarantine reason.

Select **Email & collaboration**.

Select **Review**.

Open the Microsoft 365 Defender portal.

**Answer area**

exams.dumpsmaterials.com

### Answer Area

Open the Microsoft 365 Defender portal.
Select Email & collaboration.
Select Quarantine and then select the message to review the quarantine reason.
Select Review.

1 &#8211; Open the Microsoft 365 Defender portal.

2 &#8211; Select Email & collaboration.

3 &#8211; Select Quarantine and then select the message to review the quarantine reason.

4 &#8211; Select Review.

### NEW QUESTION 30

A company uses Exchange Online. The Exchange ActiveSync access setting is configured to quarantine.

A user named User1 removes a mobile device from Exchange.

When User1 tries to connect the same device to Exchange, the device is not quarantined.

You need to ensure that the device is quarantined.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

### Answer Area

Set-Mailbox
Set-User
Set-ClientAccessRule
Set-CASMailbox

Identity "User1"

-ActiveSyncBlockedDe
-ActiveSyncAllowedDe
-ActiveSyncMailboxPo
-ActiveSyncEnabled

### Answer Area

Set-Mailbox
Set-User
Set-ClientAccessRule
Set-CASMailbox

Identity "User1"

-ActiveSyncBlockedDe
-ActiveSyncAllowedDe
-ActiveSyncMailboxPo
-ActiveSyncEnabled

### NEW QUESTION 31

A company uses Exchange Online.

A user reports they are not receiving emails with attachments from known senders.

You need to troubleshoot the issue.

Which two policies should you review? Each correct answer presents a complete solution.

A company is migrating to Exchange Online.

You receive the following error message when migrating a public folder batch:

Error (A subscription wasn't found for this user)

You need to ensure that the migration batch completes.

Which two cmdlets should you use? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- \* Remove-MoveRequest
- \* Start-MigrationBatch
- \* Stop-MigrationBatch
- \* Remove-MigrationBatch
- \* Complete-MigrationBatch

### NEW QUESTION 41

Which roles should Admin1 assign to HR and technical support department members? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

Department	Role
HR	Reviewer Compliance Administrator Organization Management Compliance Data Administrator
Technical support	Reviewer eDiscovery Manager Organization Management Compliance Data Administrator

**Answer Area**

Department	Role
HR	Reviewer Compliance Administrator Organization Management Compliance Data Administrator
Technical support	Reviewer eDiscovery Manager Organization Management Compliance Data Administrator

**NEW QUESTION 42**

A company uses Exchange Online.

A user reports receiving the following non-delivery report (NDR) when sending an email:

5.2.2 Submission quota exceeded. The sender has exceeded the recipient rate limit.

What should you do?

- \* Instruct the sender to reduce the email size and resend the email.
- \* Increase the Maximum number of recipients in a message value.
- \* Instruct the sender to wait 24 hours before resending the email.
- \* Increase the Maximum size of a message sent value.

**NEW QUESTION 43**

You need to resolve the retention issue reported by members of the compliance team. What should you configure? To answer, select

the appropriate options in the answer area.

NOTE: Each correct answer is worth one point.

**Answer Area**

Configuration setting	Option
Retention object	<input type="checkbox"/> Retention policy tag <input type="checkbox"/> Retention label <input type="checkbox"/> Default policy tag
Policy scope	<input type="checkbox"/> Adaptive <input type="checkbox"/> Static

**Answer Area**

Configuration setting	Option
Retention object	<input type="checkbox"/> Retention policy tag <input type="checkbox"/> Retention label <input checked="" type="checkbox"/> Default policy tag
Policy scope	<input type="checkbox"/> Adaptive <input checked="" type="checkbox"/> Static

#### NEW QUESTION 44

A company uses Exchange Online. The company configures an SMTP relay device. Users report that emails are being delivered to the Junk Email folder. You need to ensure that emails are delivered to the recipient's inbox. What should you do?

- \* Configure a DNS MX record for the SMTP relay device IP address.
- \* Configure a DNS A record for the SMTP relay device IP address.
- \* Add the IP address of the SMTP relay device to the SPF record.
- \* Add a mail flow connector to allow emails from the SMTP relay device IP address.

#### NEW QUESTION 45

You are evaluating the following SPF DMARC values:

Company	DMARC value
Contoso, Ltd.	_dmarc.contoso.com. TXT "v=DMARC1; p=none; sp=reject"
Fabrikam, Inc.	_dmarc.fabrikam.com. TXT "v=DMARC1; p=quarantine; sp=reject"
Litware, Inc.	_dmarc.litware.com. TXT "v=DMARC1; p=reject; sp=reject; pct=50"

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE Each correct selection is worth one point.

Answer Area	Statement	Yes
	Exams: dumps materials.com Select a capture mode Emails for Contoso, Ltd. that fail DMARC authentication are rejected.	<input type="radio"/>
	Emails from subdomains of Fabrikam, Inc. are rejected.	<input type="radio"/>
	Fifty percent of emails for Litware, Inc. that fail DMARC authentication are quarantined.	<input type="radio"/>

Answer Area	Statement	Yes
	Exams: dumps materials.com Select a capture mode Emails for Contoso, Ltd. that fail DMARC authentication are rejected.	<input checked="" type="radio"/>
	Emails from subdomains of Fabrikam, Inc. are rejected.	<input checked="" type="radio"/>
	Fifty percent of emails for Litware, Inc. that fail DMARC authentication are quarantined.	<input type="radio"/>

NEW QUESTION 46

A company uses Exchange Online.

A user named User1 receives a notification that their mailbox is full.

You verify that User1's mailbox size is 49.8 GB.

You need to increase the maximum size of User1's mailbox to 99 GB.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

\* Assign an Exchange Online Plan 1 license to User1.

- \* Run the set-Mailbox cmdlet.
- \* Run the Get-Msolsubscription cmdlet.
- \* Assign an Exchange Online Plan 2 license to User1.

#### NEW QUESTION 47

You need to resolve the compliance issue.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

New-ComplianceSearchAction	SearchName "RecoverableItems" -Purge	SoftDelete
New-MailboxSearch		SearchQuery
New-SweepRule		KeepLatest

**Answer Area**

New-ComplianceSearchAction	SearchName "RecoverableItems" -Purge	SoftDelete
New-MailboxSearch		SearchQuery
New-SweepRule		KeepLatest

#### NEW QUESTION 48

A company uses Exchange Online. The company enables Microsoft Office 365 Message Encryption (OME).

A user named User1 sends an encrypted email to a dynamic distribution group named DDG1. A user named User2 receives the email from DDG1 but is unable to open the encrypted email.

You need to resolve the issue.

What should you do?

- \* Configure the scope of the address book policy to include DDG1 as a member.
- \* Configure the MIME types that are associated with the default Microsoft Outlook Web App policy.
- \* Instruct User2 to upgrade their internet browser.
- \* Instruct User1 to send the encrypted email to User2.

#### NEW QUESTION 49

A company uses Exchange Online.

A user reports that they did not receive an email from an external sender. You perform a message trace and observe the following in

the message header SFV: BLK You need to resolve the issue.

Solution: Add the sender's email address to the recipient's allowed list Does the solution meet the goal?

- \* Yes
- \* No

### NEW QUESTION 50

You review the following data from an extended message trace for an email:

```
S:SFA=SUM|SFV=SPM|IPV=CAL|SRV=BULK|SFS=470454002|SFS=349001|SCL=9|SCORE=-1|LIST=0|DI=SN|RD=mail.com  
|SFP=1501|ASF=1|CTRY=US|CLTCTRY=|LANG=en
```

You need to determine the action performed on the email. Which action was performed when the email was received?

- \* The email was marked as spam and delivered to the recipient's Junk Email folder.
- \* The email skipped spam filtering and was delivered because the sender was in the Allowed Senders list.
- \* The email was released from the quarantine and was sent to the intended recipients.
- \* The email skipped spam filtering and was delivered because the source IP address was in the IP Allow list.

### NEW QUESTION 51

A company uses Exchange Online.

A user reports that they did not receive an email from an external sender. You perform a message trace and observe the following in the message header SFV: BU You need to resolve the issue.

Solution: Remove the sender's domain from the domain block list in the anti-spam policy.

Does the solution meet the goal?

- \* Yes
- \* No

### NEW QUESTION 52

A company uses Exchange Online. Users report that emails sent to external recipients are not being received by the external recipients. The users do not receive nondelivery report (NDR) notifications.

You plan to perform a message trace. The trace report must meet the following requirements:

- \* Display only emails sent to the external recipients.
- \* Return email addresses for recipients. The recipients are unknown.
- \* Display up to 40,000 results.
- \* Identify emails up to 60 days.

You need to configure the trace definition. You select the sender.

Which three parts of the trace definition must you configure? To answer, select the appropriate options in the dialog box in the answer area.

NOTE: Each correct selection is worth one point.
