NEW QUESTION 74

Scenario: There are two domains in an organization: Domain A and Domain

B. A Citrix Engineer configured SAML authentication for Domain A, without implementing Citrix Federated Authentication Service (FAS).

While launching the Citrix apps, the Single Sign-on will _____.

- * work for users from Domain A and NOT for users from Domain B
- * work for users from Domain B and NOT for users from Domain A
- * work for the users from Domain A and Domain B
- * NOT work for the users from Domain A and Domain B

NEW QUESTION 75

In which location is the resulting .VHD file stored by the Enterprise Layer Manager (ELM), when creating layers or layered images with Citrix App Layering?

- * On a Common Internet File System (CIFS) share location on the local domain file share server
- * On the Repository located on the local storage of the Enterprise Layer Manager (ELM)
- * On the Server Message Block (SMB) file share configured from the Citrix App Layering management console
- * On local storage attached to the hypervisor platform being used to create the images

Layer Repository

A Layer storage where the ELM creates, composites, and stores Layers and Layered Images. Local storage is used for temporary files during the creation of Layers and Layered Images, and for persistent files, for example, Layers and Image Templates. Administrators can define the Network File Share location that will be used for Elastic Layers in the UMC's System and Settings.

NEW QUESTION 76

Which component must a Citrix Engineer use to configure security settings on User Layer folders?

- * Delivery Controller
- * Site database
- * File server
- * Enterprise Layer Manager (ELM) Server Management console

<https://docs.citrix.com/en-us/citrix-app-layering/4/layer/enable-user-layers.html#configure-security-settings-on-user-layer-folders>

NEW QUESTION 77

Which User Layer requires the least amount of administrative effort to store user settings limited to Microsoft Outlook data and settings for a hosted shared desktop solution based on Windows Server 2012?

- * Session Office 365
- * Citrix Profile Management with Full
- * Full
- * Office 365

Explanation

<https://docs.citrix.com/en-us/citrix-app-layering/4/layer/enable-user-layers.html>

NEW QUESTION 78

Which database high availability option does Citrix recommend for Workspace Environment Management (WEM)?

- * Always On
- * Mirroring
- * Replication
- * Clustering

<https://docs.citrix.com/en-us/workspace-environment-management/current-release/system-requirements.html#sql-server-always-on>

NEW QUESTION 79

Scenario: A Citrix Engineer is maintaining a Citrix Virtual Apps and Desktops environment with both internal and external users and has deployed Workspace Environment Management (WEM) within the infrastructure to provide resources to users within their sessions.

The engineer has recently added a network printer to WEM under the Actions node, using the New Network Printer dialog tab, and wants to limit this printer usage to internal Citrix users, as shown below:

- * Internal users utilize Windows 10 only
- * External users Windows 10 and Windows 2016 machines
- * The server network IP address range is from 192.168.10.1 to 192.168.10.200
- * Citrix LAN users are all within IP address scope of 192.168.20.50 to 192.168.20.90
- * The external users are on a public domain
- * The Everyone group has already been added to the Assignments node within the WEM console The engineer needs to create a Condition based on _____ from within the Filters node and

_____ the Matching Result field within WEM to complete this task.

- * OS Platform type; select Windows 10 from
- * Client IP Address Match; add the IP address range 192.168.20.50 to 192.168.20.90 to
- * IP Address Match; add the IP address range 192.168.10.1 to 192.168.10.200 to
- * Client OS; select Windows 10 from

NEW QUESTION 80

Which two components are hosted in Citrix Cloud when using Workspace Environment Management (WEM) service? (Choose two.)

- * Microsoft SQL Server database
- * Active Directory Infrastructure
- * WEM Infrastructure Service
- * All machines with WEM Agent installed

Reference:

<https://docs.citrix.com/en-us/workspace-environment-management/service.html>

NEW QUESTION 81

Which User Layer requires the least amount of administrative effort to store user settings limited to Microsoft Outlook data and settings for a hosted shared desktop solution based on Windows Server 2012?

- * Session Office 365
- * Citrix Profile Management with Full
- * Full
- * Office 365

Explanation/Reference: <https://docs.citrix.com/en-us/citrix-app-layering/4/layer/enable-user-layers.html>

NEW QUESTION 82

Which statement is true regarding Citrix Workspace Environment Management (WEM) Agent?

- * WEM Agent synchronizes with the WEM Infrastructure Service on port TCP 8287.
- * WEM Agent can be installed on the Citrix Workspace Environment Management Infrastructure Services server.
- * WEM Agent can be installed on either a Windows Desktop OS or on a Windows Server OS.
- * Norskale Agent Host Service manages WEM Agent and it runs under Network Service.

NEW QUESTION 83

Which two statements are true when Citrix App Layering is used with Citrix Virtual Apps and Desktops?

(Choose two.)

- * Citrix App Layering offers all the same functionality as Citrix Provisioning (PVS).
- * Citrix App Layering simplifies application deployments and updates.
- * Citrix App Layering reduces management of multiple golden images.
- * Citrix Machine Creation Services (MCS) catalogs can be updated within the Citrix App Layering Management console.

NEW QUESTION 84

Which tool can a Citrix Engineer use as a first step in reviewing issues with Virtual Delivery Agent (VDA) session launch status?

- * Citrix Diagnostic Facility (CDF) control utility
- * Citrix XDPING utility
- * Citrix Health Assistant
- * Citrix Policy Reporter tool

NEW QUESTION 85

Which three minimum permissions should a Citrix Engineer configure for a user or group in the security settings of the User Layer folder? (Choose three.)

- * Modify Folder
- * Create Folder/Append Data
- * Write Attributes
- * Read Attributes
