Snowflake COF-C02 Cert Guide PDF 100% Cover Real Exam Questions [Q286-Q304

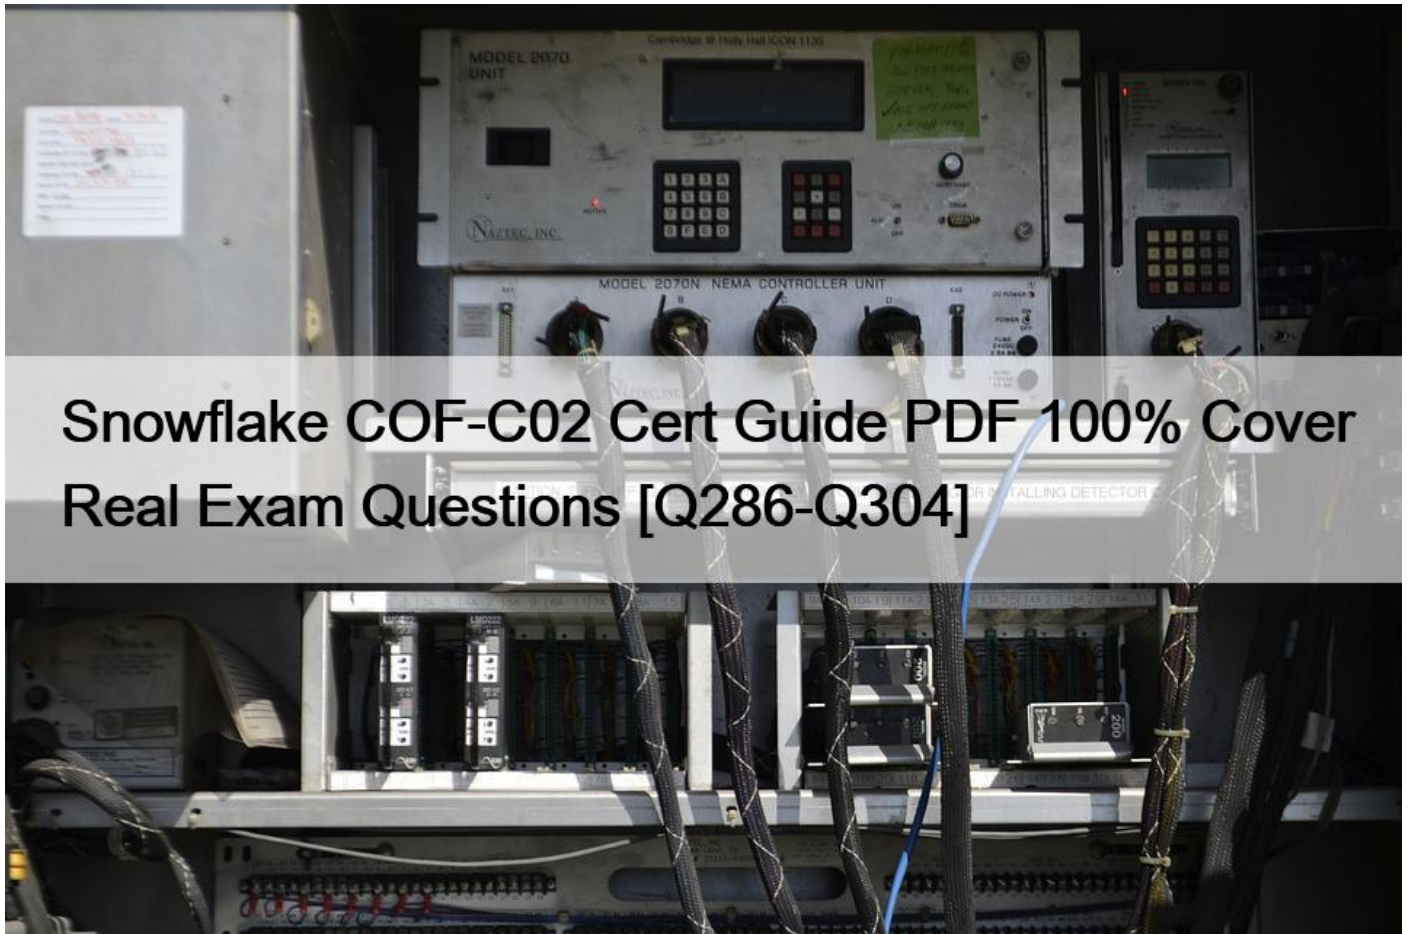

Snowflake COF-C02 Cert Guide PDF 100% Cover Real Exam Questions

Pass COF-C02 Exam - Real Questions and Answers

The topics covered in Snowflake COF-C02: SnowPro Core Certification Exam include the Snowflake architecture, data loading and unloading, querying data, securing Snowflake, and managing Snowflake accounts and objects. COF-C02 exam also covers Snowflake best practices and performance optimization techniques.

NEW QUESTION 286

Which of the following are main sections of the top navigation of the Snowflake web Interface (UI)?

* Database
* Tables
* Warehouses
* Worksheets

NEW QUESTION 287

What is an advantage of using an explain plan instead of the query profiler to evaluate the performance of a query?

* The explain plan output is available graphically.
* An explain plan can be used to conduct performance analysis without executing a query.
* An explain plan will handle queries with temporary tables and the query profiler will not.
* An explain plan’s output will display automatic data skew optimization information.

NEW QUESTION 288

True or False: When data share is established between a Data Provider and a data Consumer, the Data Consumer can extend that data share to other Data Consumers.

* True
* False

NEW QUESTION 289

True or False: Snowflake charges additional fees to Data providers for each share they create.

* True
* False

NEW QUESTION 290

Snowflake provides two mechanisms to reduce data storage costs for short-lived tables. These mechanisms are: Choose 2 answers

* Temporary Tables
* Transient Tables
* Provisional Tables
* Permanent Tables

NEW QUESTION 291

What is the maximum compressed row size in Snowflake?

* 8KB
* 16MB
* 50MB
* 4000GB

NEW QUESTION 292

Which is the MINIMUM required Snowflake edition that a user must have if they want to use AWS/Azure Privatelink or Google Cloud Private Service Connect?

* Standard
* Premium
* Enterprise
* Business Critical

Explanation

https://docs.snowflake.com/en/user-guide/privatelink-azure.html

NEW QUESTION 293

Which of the following statements about data sharing are true? choose 2 answers
* New objects created by a Data Provider are automatically shared with existing Data Consumers & Reader Accounts
* All database objects can be included In a shared database
* Reader Accounts are created and funded by Data Prowlers
* Shared databases are read-only

NEW QUESTION 294

Which commands should be used to grant the privilege allowing a role to select data from all current tables and any tables that will be created later in a schema? (Choose two.)
* grant USAGE on all tables in schema DB1.SCHEMA to role MYROLE;
* grant USAGE on future tables in schema DB1.SCHEMA to role MYROLE;
* grant SELECT on all tables in schema DB1.SCHEMA to role MYROLE;
* grant SELECT on future tables in schema DB1.SCHEMA to role MYROLE;
* grant SELECT on all tables in database DB1 to role MYROLE;
* grant SELECT on future tables in database DB1 to role MYROLE;

NEW QUESTION 295

What service is provided as an integrated Snowflake feature to enhance Multi-Factor Authentication (MFA) support?
* Duo Security
* OAuth
* Okta
* Single Sign-On (SSO)

NEW QUESTION 296

Which of the following is a valid source for an external stage when the Snowflake account is located on Microsoft Azure?
* An FTP server with TLS encryption
* An HTTPS server with WebDAV
* A Google Cloud storage bucket
* A Windows server file share on Azure

NEW QUESTION 297

A company strongly encourages all Snowflake users to self-enroll in Snowflake’s default Multi-Factor Authentication (MFA) service to provide increased login security for users connecting to Snowflake.

Which application will the Snowflake users need to install on their devices in order to connect with MFA?
* Okta Verify
* Duo Mobile
* Microsoft Authenticator
* Google Authenticator

NEW QUESTION 298

Which statement is true about running tasks in Snowflake?
* A task can be called using a CALL statement to run a set of predefined SQL commands.
* A task allows a user to execute a single SQL statement/command using a predefined schedule.

* A task allows a user to execute a set of SQL commands on a predefined schedule.
* A task can be executed using a SELECT statement to run a predefined SQL command.

NEW QUESTION 299

A single user of a virtual warehouse has set the warehouse to auto-resume and auto-suspend after 10 minutes. The warehouse is currently suspended and the user performs the following actions:

1. Runs a query that takes 3 minutes to complete

2. Leaves for 15 minutes

3. Returns and runs a query that takes 10 seconds to complete

4. Manually suspends the warehouse as soon as the last query was completed When the user returns, how much billable compute time will have been consumed?
* 4 minutes
* 10 minutes
* 14 minutes
* 24 minutes

NEW QUESTION 300

True or False: A Snowflake account is charged for data stored in both Internal and External Stages.
* True
* False

NEW QUESTION 301

What actions will prevent leveraging of the ResultSet cache? (Choose two.)
* Removing a column from the query SELECT list
* Stopping the virtual warehouse that the query is running against
* Clustering of the data used by the query
* Executing the RESULTS_SCAN() table function
* Changing a column that is not in the cached query

NEW QUESTION 302

What type of query benefits the MOST from search optimization?
* A query that uses only disjunction (i.e., OR) predicates
* A query that includes analytical expressions
* A query that uses equality predicates or predicates that use IN
* A query that filters on semi-structured data types

NEW QUESTION 303

For a multi-cluster Warehouse, the number of credits billed is calculated on:
* The number of queries that ran using the Warehouse.
* The size of the Warehouse and the number of clusters that ran within a given time period.

* The sue of the Warehouse and the maximum number of clusters configured for the Warehouse.
* The number of users who accessed the Warehouse.

NEW QUESTION 304

Which activities are included in the Cloud Sen/ices layer? (Select TWO).
* Data storage
* Dynamic data masking
* Partition scanning
* User authentication
* Infrastructure management
