100% Real & Accurate ANVE Questions and Answers with Free and Fast Updates

### NEW QUESTION 73

Working with a retailer on a site survey, they ask if there's any way to get more of the aisle and less of the shelves on the short sides in the shot. An AXIS M3204 camera is being used. Which would be the best suggestion to the retailer?

- \* Adjusting the varifocal lens from 2.8 mm to 10 mm
- \* Adjusting the varifocal lens from 2.8 mm to 4 mm
- \* Using Axis's Corridor Format
- \* Switching the camera to a 16:9 view

### NEW QUESTION 74

Image flickering is caused by

- \* IR light
- \* White light

- \* Lack of light
- \* Fluorescent light

#### **NEW QUESTION 75**

Which is true about P-iris?

- \* The P-iris makes use of a novel p-shaped blade that reduces complexity and cost while maintaining image quality
- \* In bright situations, P-iris limits the closing of the iris to avoid blurring caused by diffraction when the iris opening becomes too small
- \* The P-iris delivers the optimal depth of field by always using the smallest possible aperture for the available lighting
- \* The P-iris makes use of a novel p-shaped blade that allows the iris to react to rapidly changing lighting conditions

#### **NEW QUESTION 76**

Which technology can a Video Management Software (VMS) partner incorporate to reduce the impact on recorded video during server maintenance?

- \* Local storage at the camera
- \* Meta data stream
- \* AXIS Camera Application Platform (ACAP)
- \* SNMP

#### **NEW QUESTION 77**

In many places 24 V AC has been popular as a power source but now 12 V and 24 V DC is increasing in popularity because

- \* There is more energy in DC.
- \* It is easier to back-up DC with battery.
- \* There is less power loss in cables with D
- \* There is less risk for surge with DC.

#### **NEW QUESTION 78**

In a network surveillance installation, the purpose of a switch is to

- \* Forward the video stream between networks.
- \* Forward the video stream to the correct receiver within a network.
- \* Disconnect malfunctioning cameras from the network.
- \* Disconnect devices with invalid IP addresses from the network.

#### **NEW QUESTION 79**

What is the most effective and time saving way to adjust the focus on the AXIS M3204 camera while onsite?

- \* Remote zoom and focus feature
- \* Adjust back focus
- \* AXIS T8414 Installation Display
- \* AXIS Camera Management

#### **NEW QUESTION 80**

IP51 and IP52 means that the camera

- \* Can be placed in or outdoors.
- \* Is resistant to dust and dripping water.

- \* Is vandal resistant.
- \* Is designed for tough environments.

### NEW QUESTION 81

When installing a network camera with PoE, which best practices should be taken into consideration?

(Choose two)

- \* The camera has the correct software version
- \* The camera is configured for continuous recording
- \* The correct PoE standards are being used
- \* The camera has multiple video streams in H.264
- \* The correct cabling standards are being used

### NEW QUESTION 82

In which cases would a people counting analytic be used with an Axis camera (Choose three)?

- \* Fire protection in subways
- \* Statistics for retail stores
- \* Early warning system for flooding
- \* Enhanced service levels for public transportation
- \* Crowd detection for marketing purpose

### NEW QUESTION 83

DRAG DROP

Match each function to the correct video surveillance system component. Drag each gray box from the left column to the matching blue box in the right column.

Network camera	Exports video
Ethernet switch	Connects twisted pair with fiber optic cabling
Video Management System	IEEE 802.1X authenticator
DHCP server	Compresses video data
Media converter	Allocates IP addresses to cameras

Network camera	Media converter
Ethernet switch	Network camera
Video Management System	DHCP server
DHCP server	Video Management System
Media converter	Ethernet switch

### NEW QUESTION 84

Audio detection can be used

- \* Only with cameras with built in microphone.
- \* In all Axis cameras but an extra intelligent video (IV) module is necessary.
- \* Only in quiet areas.
- \* For detecting a change in decibel levels.

### NEW QUESTION 85

An analog system that should be upgraded to IP using encoders must have the end of the analog signal terminated. How many Ohm () should that be?

- \* 50
- \* 70
- \* 75
- \* 80

### NEW QUESTION 86

DRAG DROP

Match the product series with right product. Drag each gray box from the left column to the matching image box in the right column.

AXIS P13 Series	
AXIS Q60 Series	
AXIS M10 Series	
AXIS P33 Series	

### NEW QUESTION 87

Focusing a camera improves the image, but it also

- \* Has an effect on the frame rate
- \* Increases the bandwidth
- \* Changes the pixel resolution
- \* Decreases the bandwidth

### NEW QUESTION 88

A camera can deliver two full resolution 30 fps H.264 streams. The customer wants to have four

H.264 streams at 30 fps, from the same product. How can this be achieved?

- \* By changing the codec
- \* By increasing the bandwidth
- \* By decreasing the resolution
- \* By increasing the frame rate

### NEW QUESTION 89

A camera is positioned where backlighting is a problem. What would be the preferred action?

- \* Use a lens with a polarized filter
- \* Axis P-iris technology will solve your problem
- \* Increase the shutter speed to more than 1 /100 s
- \* Add additional light sources to counter backlighting

### NEW QUESTION 90

DRAG DROP

Match the protocol to its default port number. Drag each gray box from the left column to the matching blue box in the right column.

HTTP	25
HTTPS	443
FTP	21
SMTP	80

HTTP	FTP
HTTPS	SMTP
FTP	HTTP
SMTP	HTTPS

### NEW QUESTION 91

Which is the main advantage of Axis P-iris technology?

- \* It improves low light performance
- \* It reduces purple fringing

- \* It limits motion blur
- \* It optimizes the aperture, limiting artifacts

### NEW QUESTION 92

Which of the following statements is a recommended best practice for outdoor installations of Axis cameras?

- \* Connect cameras and end points (midspan, endspan, network switch or hub) with Category 5e UTP cable
- \* Ensure that a surge suppressor is installed in front of each camera
- \* Ensure that the end points are properly grounded
- \* Connect a UPS to the network switch

### NEW QUESTION 93

Ghost image is when

- \* The lens is using too high f-stop value.
- \* The shutter time is too long.
- \* The gain is too high.
- \* The frame rate is too low.

### NEW QUESTION 94

When using the view area functionality, each view area has its own video stream and (Choose two)

- \* Exposure control setting
- \* Text overlay setting
- \* User credentials
- \* PTZ setting
- \* Compression algorithm setting

### NEW QUESTION 95

DRAG DROP

Match each product name with the right description. Drag each gray box from the left column to the matching blue box in the right column.

AXIS P3344-V	Network camera protected from dust, water, and vibrations
AXIS M1031-W	Outdoor ready network camera
AXIS M3114-R	Vandal resistant network camera
AXIS Q6035-E	Wireless network camera

AXIS P3344-V	AXIS P3344-V
AXIS M1031-W	AXIS M1031-W
AXIS M3114-R	AXIS M3114-R
AXIS Q6035-E	AXIS Q6035-E

### NEW QUESTION 96

What is the appropriate usage for an Axis thermal camera?

- \* Identifying people in complete darkness
- \* Detecting motion only at nighttime
- \* Measuring exact temperatures in daytime
- \* Detecting activity in daylight and complete darkness

Axis Network Video Exam (ANVE) is a certification program designed to validate the knowledge and skills of professionals working in the field of network video surveillance. ANVE exam is developed by Axis Communications, a leading provider of network video solutions, and covers a wide range of topics related to the design, installation, configuration, and maintenance of network video systems.
